ABOUT ME

Full Stack Developer with a D3 degree in Informatics Engineering and hands-on experience developing websites and applications. Experienced in building backend logic, REST APIs, and data processing using JavaScript, PHP, and C#. Writes code using Object-Oriented Programming (OOP) and functional programming approaches. Comfortable working independently as well as collaboratively within cross-functional teams.

WORK EXPERIENCE

Freelance Web Developer & Mobile Developer

May 2024 - August 2024

- Developed various websites and mobile applications using HTML, CSS, JavaScript, PHP, MySQL, CodeIgniter, and Android Studio.
- Continuously improved technical skills by adopting new technologies and following current trends in web and mobile development.

Full Stack Developer – Crackin'Code Studio

January 2025 - December 2025

- Developed backend services using Express.js and Laravel to support web and mobile applications.
 - Designed database structures and handled CRUD operations, filtering, and data aggregation.
 - Collaborated with frontend developers on API integration and end-to-end debugging.
 - Built full stack applications from scratch using Next.js, from project structure to core feature implementation.
 - Organizing tasks and communicating directly with clients.
-
